| All work under this OMO must be done using safe work practices, occupant protection, training, and certification pursuant to EPA's Renovation, Repair and Painting (RRP) rule under 40 CFR Part 745 Subpart E and lead-based paint abatement activities under 40 CFR Part 745 Subpart L (where abatement/permanent removal is performed), and New York City Admin Code § 27-2056.11. The work scope requires that the firm be EPA-certified to perform both RRP activities and abatement activities. Based on the work scope, workers assigned must be individually EPA-certified Renovators (where work is renovation) or Lead Abatement Workers/Supervisors (where work is abatement/permanent removal). If the work scope included abatement/permanent removal, the contractor must file appropriately with EPA. In addition, the contractor must comply with the tenant notification and record-keeping requirements pursuant to RRP and perform a cleaning verification. HPD may audit the cleaning verification and tenant notification records. HPD will conduct a dust wipe clearance test at the conclusion of the work to confirm proper cleaning has been completed. |                                                                                                                                                                                                                                                                                                      |                                                                     |                                                |                                          |                                                               |                                    |                                               |                                   |                                   |                                 |                                          |
